Memorandum of Understanding

This **Memorandum of Understanding** (this "**MOU**"), dated as of 1/3/2022is made by and between **Infosys [including its subsidiaries and Affiliates]** a company registered under the laws of India and having its registered office at [at Plot No. 44 & 97A, Electronics City, Hosur Road, Bangalore: 560 100, India] (collectively with its affiliates "**Infosys**") and **Gokaraju Rangaraju Institute of Engineering and Technology (including its subsidiaries and Affiliates)** with its registered office at **Bachupally , Kukatpally , Hyderabad -90** (collectively with its subsidiaries and Affiliates "**Gokaraju Rangaraju Institute of Engineering and Technology**") Both parties hereto collectively referred to as the "Parties" and individually as a "Party". The Parties hereby agree as follows for leveraging Infosys Springboard platform for **Gokaraju Rangaraju Institute of Engineering and Technology**'s Staff and their students for their Learning, Teaching needs.

In alignment with the Infosys' ESG Vision 2030, the initiative for enabling digital skills at scale, Infosys Springboard, has been identified as a flagship intervention to empower people, communities, and society. Through this initiative, Infosys plans to empower over 10 million people with digital and life skills by 2025. The reach will include students across India in the age group of 10-22 years as well as lifelong learners.

Infosys Springboard is powered by Infosys Wingspan, our integrated digital learning and collaboration platform and includes learning content developed by Infosys and leading content providers, spanning digital and emerging technologies and life skills. For a holistic learning experience, the platform has technology and soft skills playgrounds, programing challenges and social learning features.

The program is led by a dedicated team of experts collaborating with the Education Training and Assessment (ETA) department, NGO partners, and established networks of identified educational institutions. To reach the target of 10 million+ learners in the next five years, Infosys Springboard is collaborating with educational institutions leveraging Infosys' Campus Connect and Catch Them Young programs, together with conducting master classes and competitive events on the platform. Soon, Infosys Springboard will be available in major Indian languages.

Infosys Springboard opens innumerable opportunities for all learners to learn and know the intricacies of Digital Learning world at **"free of cost" as part of Infosys' CSR initiative.**

Students and the Teaches/Professors can learn 21st century digital skills related to Digital skills, Project management skills, Stress management skills, Cyber security, spoken English, soft skills workshops, spoken-English and financial literacy etc.,

Younger Students can benefit from gamified coding platform including Scratch an open-source platform created by MIT USA.

College students have access to quality content in professional programming, Playgrounds for all emerging technologies, domain skills, project management skills from leading content providers in the world. They also have access to certification programs which will improve their employability with the companies across India who are registered with NASSCOM.
